This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

Rocky Hill Sept 1. 1783

Sir,

I have carefully perused the Papers which you have put into my hands relative to Indian affairs.

My sentiments with respect to the proper line of conduct to be observed towards these people coincides precisely with those delivered by Gen. Schuyler in his Letter of the 20th July to Congress (which with the other papers returned) — & for the reasons he has assigned; I therefore by no means think it necessary, as an independant Measure, to make any observations of my own on the subject. Such considerations have weight in my mind

To enter a wide extended Country to be overrun with Land Jobbers — Speculators — & Monopolizers is inconsistent with that wise & liberal policy which dictates, or an enlightened People ought to adopt: and besides the prospect of disputes both with the Savages, & amongst ourselves are easier to be conceived than described. Any measure which may tend to encourage a few adventurers to the prejudice of many & to embarrass the Government of Congress, ought to be avoided.

I think the People without contributing in the smallest degree to the support of Government or considering themselves as amenable to its Laws, will involve it by their unrestrained conduct, in inextricable perplexities, & more than probable in a bloody & unequal War.

My ideas therefore of the line of conduct proper to be observed towards the Indians, is for the government of the citizens of America in their settlements

PREFATORY NOTE

Under an Executive order of March 9, 1903, the Washington Papers were transferred from the Department of State to the Library of Congress. Long as the manuscripts had been in the possession of the Government, no list of the letters of Washington had ever been so much as attempted; and the letters written to him had been but imperfectly listed by Jared Sparks when engaged in preparing his "Writings of George Washington" first published in 1833–37. The great size and historical importance of the collection demand a closer study, and a series of calendars generally descriptive of its contents. The first of these calendars deals only with the correspondence between the General and the Continental Congress.

The segregation in the Library of Congress of other collections offered an unusual opportunity to make the calendar complete so far as concerned the materials for the period covered. So that while the Washington Papers forms the basis of the calendar, related material is drawn from other sources, wherever the original is found in the Library of Congress. The various sources are the Washington Papers, the papers of the Continental Congress, and the papers of Robert Morris.

I. THE WASHINGTON PAPERS.

The arrangement of the Washington Papers is peculiar, and was due to the ingenuity of Jared Sparks. They are divided into two great series. The letters from and the letters to the General; and the letters from him during the Revolutionary War are subdivided into subseries as follows:

A. Letters to the President, Committees, and individual members of the Continental Congress.
B. Letters and orders to officers of the Continental Army.
C. Letters to the Governors and other civil officers of the States.
D. Letters to foreign ministers, officers or individuals.
E. Letters to officers in the service of the British Crown.
F. Records of the Councils of War and opinions of the general officers on military affairs.
P. Private letters.

Before this division, which appears to have been due to the secretaries and aids of the General, had been perfected, copies of letters were kept in books irrespective of a distribution according to addressee. Four volumes of such letters exist and the contents have been drawn upon as needed for this calendar.

The entire contents of Series A appear in this calendar as well as such letters and papers in the other series as were pertinent to the purpose. These letters are the first drafts, either in the writing of Washington or his aids, and are, for the most part, not signed. As the idea and not the language of the letter, when written by an aid, was Washington's, some effort has been made to identify the writer of the draft. The success is greater than was anticipated, and it is for the first time possible to measure the confidence reposed in his aids by the Commander-in-chief. It was a surprise to find some drafts or copies in the writing of Martha Washington; it was quite as surprising to learn the great number of papers in the writing of Alexander Hamilton, John Laurens and Tench Tilghman. It is still more surprising to find elaborate drafts entirely in the writing of Washington himself, and often prepared in the most critical periods of the war. As a general and useful guide to the writers of these drafts a list of those serving as aids and secretaries to Washington, with a page of their writing, is added (p. 9). Outside of Series A a few letters have been drawn from Series P, and from the four combined volumes. Of these two series there exist transcripts prepared by Richard Varick in 1781–3. A few missing originals have been made good from these transcripts.

The Letters to Washington, comprising 117 volumes, form the second great source of materials listed in this calendar. Some attempt had been made by Mr. Sparks to bind in separate volumes what papers had been received from the Continental Congress; but the attempt was imperfectly planned and very imperfectly carried into effect. The result has been that not only were those Congress volumes calendared (Vols. 89–98) but the entire collection has been examined for papers that had been misplaced.

II. PAPERS OF THE CONTINENTAL CONGRESS.

The third great source of papers were the Papers of the Continental Congress. A rough list of these papers was prepared when Peter Force was compiling the "American Archives," but it is a list useless for historical purposes, conveying no idea of the contents of the different papers or of the relations of one to another. Crudely planned, it was still more crudely prepared, and it is impossible to trace even the location of a single letter and the response made, or of a single paper and its enclosures. The letters of Washington to the Congress fill

eleven volumes, and transcripts were made of them in nine volumes under the direction of the Secretary, Charles Thomson. This series, undoubtedly the finest series of Washington letters in existence, contains many holographs of Washington, and many written by his aids, with a large number of enclosures relating to civil and military affairs. The writer of the body of the papers has in each case been identified, so far as was possible. The letter books of the Presidents of Congress (those of John Hancock are not in the collection), and the Dispatch and Committee books gave much additional material. Of high importance was the series of reports of committees of Congress on letters of Washington. The letter books of Robert Morris, while Superintendent of Finance, were searched and whatever was written to Washington was inserted in this calendar.

In the preparation of so extensive a list certain details were omitted which might seem of importance. The same letter may exist in four forms: 1, the draft; 2, the Varick transcript of the draft; 3, the letter sent to the President, and 4, the Thomson transcript of this letter. It has not been thought necessary to mention the letter in more than one of its forms. Should a closer study of a letter be desirable the investigator can easily learn whether the other forms are in the Library. Series A, of the drafts forms the basis of the list, and is the more interesting as being the form of paper nearest to headquarters and while in process of composition. The changes and additions clearly show this process. The dates of replies to letters are noted in the calendar wherever they are to be found endorsed on the original letter (an asterisk [*] denotes that the reply is in the Library of Congress); but no attempt had been made to insert such information when not so noted as the chronological arrangement of this calendar readily lends itself to the uses of the investigator. The number of pages occupied by a paper in a book of transcripts is not given, as the information would convey no true conception of the length of the original paper.

While it would be useful to indicate where each document could be found in print (if it has been printed), the task would be greater than the value of the results. References have been confined to the Sparks and the Ford editions of the "Writings of Washington," and to the "Journals of the Continental Congress."

The true first document of the calendar is Washington's paper read in Congress June 16, 1775, accepting the command of the Continental army. The last document was properly the resignation of his commission in 1783. Two entries of 1784 were added to complete the story of incidents occurring before the resignation; and one of 1789, announcing the election of Washington to the Presidency under the Federal Constitution, fittingly closed his connection with the Continental Congress, and marked his re-entrance into public life under the

new political conditions which put an end to the existence of that revolutionary, but then almost powerless, legislative body.

It would be useless to undertake to summarize the nature of this collection or to dwell upon its importance to history and biography. It is enough to say that it is unique, most notable and of imperishable interest, embodying the history of the Revolution and the acts of the leading men of that time.

The calendar has been prepared by Mr. John C. Fitzpatrick, of the Division of Manuscripts.

LIST AND WRITING OF WASHINGTON'S AIDS-DE-CAMP AND SECRETARIES

This comprises all of the regularly appointed aids and secretaries, the General Orders, a resolution of the Continental Congress, or a definite statement from the Commander-in-Chief being the authority. It does not include the many individuals who were transiently at Headquarters and occasionally pressed into service as amanuenses:

Head Quarters

Nov. 16. 1776

Since I had the Honour of addressing you last an important Event has taken Place of which I would to give you the earliest Intelligence — The Preservation of the Passage of the North River was an Object of so much Importance that I thought no Pains or Expence too great for that Purpose, & therefore after sending off all the valuable Stores except such as were necessary for its Defence & determined against the Advice of the most of the General Officers to risque something to defend the Post on the East side called Mount Washington — After the Army moved up in Consequence of Gen. Howe's landing at Frog Point Ft. Magaw was left in the Command with about 2000 Men & Orders given to defend it to the last. Afterwards reflecting upon the Smallness of the Garrison & the Difficulty of their holding it if Gen. Howe should fall down upon it with his whole Force I wrote to Gen. Greene who had the Command on the Jersey Shore directing him to govern himself

WRITING OF JOHN TRUMBULL.

Sir,

I received yours of the 9th Instant, and comply with that as was in my power, consistent with the Duty I owe my Country to grant you the Relief you desire. — I have made repeated applications to General Howe for an Exchange of Prisoners, but he has not thought proper to return me any Answer. — It has been my power to set you at liberty, and if you are still continued a Prisoner the blame must lay intirely upon him, —

The Situation of your family is indeed distressing, but such is the Event of War, that it is far from being singular. — The brave Colo. Allen an Officer of Rank, has been torn from his dearest Connections, sent to England in Irons and is now confin'd to the most servile Drudgery on board one of the King's Ships — Your treatment Sir, & that of the other Officers, taken in Arms against the Liberties of America, has been very different — for the truth of this I appeal to your own feelings — &c

Whenever it is in my power to release you from your confinement by a mutual Exchange. I shall do it with the greatest pleasure and am

Sir
Your most Obed. Servt.

WRITING OF GEORGE BAYLOR.

Camp above the Falls of Trenton
(153) Decemb.r 22.d 1776

When I wrote to you on this
Subject I had little doubt of receiving con-
siderable support from the Militia of this State
and was led to believe that a large body
of the Militia were coming on with General Lee)
but when I reflected on the great reason there was
to fear a disappointment in the matter, I
did not think myself justifiable in delaying
the attempt to endeavour, upon every
event, to relieve the Country from the
Calamities it must otherwise expect to
suffer, and which I think inevitable
unless some expedient of this kind
should be successfully executed. The
Troops with me were in a very low state
with only a very few Artillery, equipments (reduced
almost to nothing) to oppose Howes main Army
already Lodged in such a manner as to cover
his whole force upon us, as soon as the Head of
Jersey lets him a passage over the Delaware, and
our numbers such, as to give no effectual oppo-
sition.

Under circumstances, it is a matter of some
concern to me, that in my last I directed you to take
back any of the Militia designed for the support
of the Army under my Command, and have to
request that, instead of ordering the return of any
of those that were destined for this Department (by
order of their respective States) that you will
hasten them on with all possible celerity,
as it is the only chance of saving Philadelphia,
and preventing a fatal blow to America in
the Loss of a City from whence so much of our
Resources are drawn.

With respect to yourself, you
will proceed agreeably to the directions in my former.
It is not doubted in me at this distance to
lay down any [illegible] for your conduct

WRITING OF EDMUND RANDOLPH.

Sir

Head quarters Cambridge August 19. 1775

I addressed you on the 11th Instant in Terms which gave the fairest Scope for the Exercise of that Humanity & Politeness which have supposed to form a Part of your Character. I remonstrated with you on the unworthy Treatment, shewn to the officers and Citizens of America, whom the Fortune of War, Chance, or a mistaken Confidence had thrown into your Hands.

Whether British or American Mercy, Fortitude, and Patience are most pre-eminent — whether our virtuous Citizens whom the Hand of Tyranny has forced into Arms to defend their Wives, their Children, and their Property, or the mercenary Instruments of lawless Domination avarice and Revenge, best deserve the Appellation of Rebels, and the Punishment of that Cord, which your affected Clemency has forborne to inflict: whether the Authority, under which I act, is usurped, or founded upon the genuine Principles of Liberty, were altogether foreign to the Subject. I purposely avoided all political Disquisition; nor shall I now avail myself of those advantages, which the sacred Cause of my Country, of Liberty, and human Nature give me over you. Much less shall I stoop to Retort and Invective. But the Intelligence you say you have received from our Army requires a Reply — Have patience Sir, to make a strict Inquiry, and find it has not the least Foundation in Truth. Not only your Officers and Soldiers have been treated with a Tenderness due to Fellow-Citizens, and Brethren, but even those execrable Parricides whose Counsels and Aid have deluged their Country with Blood, have been protected from the Fury of a justly enraged People. Far from compelling or permitting their Assistance, I am embarrassed with the Numbers who flock to our Camp, animated with the purest Principles of Virtue, and Love to their Country — You advise me to give free Operation to Truth, to prevent Misrepresentation and Falsehood. If Experience stamps Value upon Counsel, yours must have a Weight, which few can claim. You best can tell, how far the Conviction, which has brought such Ruin on both Countries, and shaken the mighty Empire of Britain to its Foundation, may be traced to these permanent Causes.

You affect, Sir, to despise all Rank, not derived from the same Source with your own. I can not conceive one more honourable, than that, which flows from the uncorrupted Choice of a brave and free People — the purest Source, and original Fountain of all Power. Far from making it a Plea for Cruelty, a Mind of true Magnanimity, and enlarged Ideas would comprehend, and respect it.

What may have been the ministerial Views, which have precipitated the present Crisis, Lexington, Concord, and Charlestown can best declare. May that God to whom you then appealed, judge between America and you. Under his

WRITING OF WILLIAM PALFREY.

Newyork 19th Apr. 1776

Sir

Upon this moment received a Letter from General Sharpe containing Intelligence of a very important nature. Copies of what I imagine are contained in the inclosed Letter to you for that I thought it my duty immediately to forward by Express, that they may be laid before the honorable Congress and proper measures pursued to prevent the fatal effects which are therein apprehended. For my own part I have done my utmost to forward the four Regiments ordered by Congress, but a variety of accidents have hitherto conspired to prevent their embarkation. The Men had scarcely recovered themselves from the fatigues of their march from Boston, and are quite unprovided with new Carriages. The Colonels of the Regiments, though repeatedly called upon for that purpose, had neglected making out the abstracts for their pay. All Obstacles however are now removed, and I hope to begin the embarkation this day. Indeed it would have been best in my opinion, to have sent the Regiments rais'd in this Province and New Jersey upon that Service, had not the peculiar circumstances under which they were rais'd presented it. by the terms of their inlistment they are to serve during the War, and at five dollars p Month, on Condition (as I am inform'd) that they shall not be sent out of those Provinces. Besides, they are very ill provided with Arms, some Companies not having any. It must be a great Burthen upon the Continent to keep such a number of useless Men in pay, and yet if they should be disarmed and an unexpected Supply of Arms should arrive it may be found very difficult to replace them.

The Officers of the several Corps that have arrived I

WRITING OF CALEB GIBBS.

Mount Laurel's West-point
20th Nov. 1774

On monday evening I had the honor to receive your Excellency's letter of the 18th with the Instructions which it incloses, by Major Clarkson. I also had the honor, Since, on the night of the 19th to receive your favor of the 18th

I regret much the failure of the expedition against Fort Pitt and the causes which seem to have produced it. The North Carolina Troops proceeded yesterday to New Windsor, from whence they would begin their march for the Southward to day. — They could not commence it Sooner. From the State of matters in the Southern quarter as communicated by General Lincoln in his letter to the Hond.ble the Committee of Correspondence, I most Sincerely wish it were in my power to afford him further Succor from this Army than the North Carolina Troops; but from the fullest consideration of the matter, it does not appear to me practicable. I had determined to send that part of Bryan's Regiment, which is under the Command of Lt Col.o Washington, and accordingly wrote him yesterday to march, but unfortunately I found by the report of an Officer belonging to the Regiment whom I saw to day, that it would answer but little. If any part Should, as the Inlistments of many, if not all the rest would expire, before, or not long after they could arrive. From this Circumstance I have been obliged to send a Countermanding Order. I have however called for an exact Return of the Men's engagements, and when I receive it shall act with respect to them as circumstances may authorize. The Letter which I have the honor of addressing to

WRITING OF SAMUEL BLATCHLEY WEBB.

Dear Sir

White Plains Nov.r 6th 1776

I have the honor to inform you that on Yesterday morning the Enemy made a sudden and unexpected removal from the several Posts they had taken in our front, they broke up their whole encampment the preceding night, and have advanced towards Kingsbridge and the North River. The design of this manoeuvre is a matter of much conjecture and speculation, and cannot be accounted for with any degree of certainty. The grounds we had taken, & position off were strong and advantageous, and such as they could not have gained without much loss of Blood in case an attempt had been made, I had taken every possible precaution to prevent their outflanking us, which may have led to the present measures. They may still have in View their Original plan, and by a hidden plan which they [illegible] accomplish it. Detachments are constantly out to observe their motions, and to harrass them as much as possible.

In Consequence of this movement I called a council of General Officers to day to consult of such measures as should be adopted in case they pursued their retreat to Newyork. the result of which is herewith transmitted. In respect to myself I cannot indulge An Idea that General Howe, supposing he [illegible] to Newyork or [illegible] the Continent

WRITING OF ALEXANDER CONTEE HANSON.

frame some general Regulations on this Head.
They are unwilling they say to subject their
Constituents to partial Restraints —

I once mentioned to Congress that I thought
a War Office extremely necessary, & they seemed
inclined to institute one for our Army, but the
Affair seems to have been since dropt — I give
me Leave again to insist on the Utility and
Importance of such an Establishment — the
more I reflect upon the Subject, the more I am
convinced of its Necessity, and that Affairs can
never properly be conducted without it —

'Tis with Pleasure I receive the Resolve
inclosed in your Favour of the 11th Inst. one
considerable Ground of Dissatisfaction in the Army is thereby
removed —

I have employed Persons in building the
Gondolas and Boats, which the Congress thought
necessary for the Defence of this Place; and in
Conjunction with the Provincial Congress have
determined to sink Chevaux de Frize, one of
which is already begun —

I am, with &

Ty. W).

WRITING OF WILLIAM GRAYSON.

To Maj. Gen. Lee

Sir

The late movement of the Enemy, & the probability of their having designs upon the Savages (as promised by many accounts from diverse & persons) rendering it necessary to have a body of troops over the Sath river, I shall immediately follow, and the command of the army (had it not been for General Heath's division marched to Peekskill) devolving upon you, I have to request

That you will be particularly attentive that all the intrenching & other tools (excepting those in immediate use) be got together & delivered to the Quarter Master General, or Maj. Read, who heretofore has been entrusted with them.

That you will direct the commanding officer of Artillery, to report himself on having the Army well supplied with Musket Cartridges, for this purpose, a convenient place at a distance, should be fixed on, that the business may go on uninterrupted.

That our troops who have been furnished with Arms Accoutrements, or Camp utensils be suffered to depart the Camp before they have delivered them, either to the Commissary of Stores, or the Quarter Master General, or his Assistant) as the case may be, taking receipts therefor, in consideration of those which they have lost. In a particular manner let the tents be taken care of, & committed to the Quarter Mr Genl's care.

To settle [illegible] and manifest

WRITING OF GEORGE JOHNSTON.

Head quarters. Morristown. 4th April 1777.

Dear Sir

With this you will receive Two thousand Dollars, all in 30 dollar Bills — and a draft of the Recruiting Instructions to be delivered to the Officers. His Excellency desires me to inform you that the Inconvenience of carrying the Money induced him to send it in such large Bills. In addition to the recruiting Instructions you will be pleased to order the Officers to make Note of their Moneys Jogs, sleft Marks, places of their Nativity & where & by whom they were inlisted — and thereupon appoint a place of general Rendezvous, to which you will order the Officers in the most peremptory manner to send their Recruits as fast as they can [I say this in but a reasonable number, equal to the trouble of sending them] in the mean time each Capt inlisted, that they may be in training while the Regt must lye upon some certain place for the Men to continue at, & not permitted to straggle about the Country, to the great Injury of the Inhabitants — [illegible] you will be pleased to order some experienced Officer to remain, that he may be chairs the Company — Col. Hamilton has offered Captaincies, [illegible] while the recruits are going on

I write Letters to that purpose, to Majr Edmund Taylor of Fauquier, Andrew Buchanan of Talbot,

Camp Prospect Hill
at Middle Brook June 2d 1779

Yesterday recd your favour of the 28th
inclosing with the Measures ...

Every proper measure has been already taken
with respect to the Artillery imported on the Amphitrite &
The 3 Brass 12 pounders have been brought on to Springfield and
the 31 of the Heavy Light Artillery ordered on to Albany,
from which place they will be forwarded to Canada as
circumstances will permit. ... The other 21 are made upon
an old plan exceedingly heavy and unmanageable, intended
to be used principally in Embrasures, and requiring so large
a number of Horses to carry them and men to manoeuvre them
as must render them very inconvenient for field service,
and the more liable to be lost in an unsuccessful action. —
— For those reasons it has been judged expedient to have
them cast over, and constructed upon a lighter plan, which
besides making them more portable and convenient for
use, will be attended with the advantage of increasing the
number ... Out of those heavy four pounders, will make
three six pounders sufficiently substantial for any purpose
whatever ..... Congress have directed the Council of Safety
to establish a foundery, and have them now at
and Springfield is the place destined for the purpose — It
were to be wished, that a matter of such importance, may
meet with no delays, that can be avoided. ....

The light pieces, will all join the army
as fast as the respective Carriages can be completed, and the
necessary Horses and tackling provided to convey them and

WRITING OF RICHARD KIDDER MEADE.

Sir

Head Quarters 6th May 1777

Your Letter of the 15th I had the Honor of receiving Last Night at eleven O'Clock. The Commission inclosed for Monsr. Mauroy Demaule I shall deliver him as soon as I see him.

Agreeable to your request, I will give Commissions to the Brigadiers and will ascertain their Rank by their original Commissions when I obtain them. The inquiry directed respecting Major Campbell shall be made and that be done, such Steps shall appear right.

I fear it will be hardly possible to satisfy the reasonable claims of some of the French Gentlemen. The late promotion of Monsieur Malmedy, this highly Honorable, and most deserving Gentleman fully, if not more than adequate to his pretentions, be they upon any principle, does not come up to his demands. He arrived here yesterday morning, and has been waiting at me upon the subject. From the high marks of distinction, but too readily conferred upon those Men, in many instances, they seem to have bespoke of what is just and reasonable. It would have been happy for us particularly for me, and for the Gentlemen themselves, if a less exalted Scale had not influenced them to confer upon all Rank in my Army — even that of first Officers, Power in my Power to give Commands before Appointment. I shall inform Monsieur Demaule and recommend him to it in the best manner I can, that there is no Vacancy for him at present, and I would beg leave to suggest, that such promotions are more unfortunate, from Political and Monetary motives. That it will be well for Congress to explain to the Gentlemen that they may become known before they can be put in actual Command. This might prevent their entertaining suspicions of my backwardness on my part, which the situation of the Army will not allow me to obviate. There is no vacancy for Monsieur Malmedy, of the Rank he now holds, nor by the merits of many other Officers, who have served with reputation and much longer here, are to be overlooked to make way for him. Such a measure will neither be practicable — nor prudent to attempt.

By a Letter from Genl Heard who is at Pompton, I am informed that Colo. Paulen & Brodrick with 300 Tory Levies from Bergen on the morning of the 13th attempted to surprize & cut off, about 170 of his Militia, the Inhabitants [illegible] Officers Cowardly Rabble

WRITING OF JOHN LAURENS.

objects— these are objects of the greatest moment, and they may in their consequences involve the fate of America— for I will undertake to say that it is next to impossible, now when the season is so far advanced, properly to accomplish those changes, appointments and the dependent arrangements for the ensuing campaign— should any convulsion happen, or movement take place, they will be altogether impracticable— Justice to my own character as well as duty to the Public constrain me to repeat these things, their consequences are more easily conceived than described—

It may be said by some sir, that my wishes to see the officers of the army upon a more respectable establishment, is the cause of my solicitude— to such I can declare, that my anxiety proceeds from the causes above mentioned— if my opinion is asked with respect to the necessity of making this provision for the officers I am ready to declare, that I believe the salvation of the cause depends upon it— and without it your officers will consider to nothing, or be composed of

WRITING OF JAMES McHENRY.

Hd. Qrs. Middletown

25 Dec. 1779

I have the honor to lay before your Excellency the representation of a certain Elizabeth Bicquin late an inhabitant of New-York. From the testimony of different persons, and particularly from many of our own officers who have returned from captivity, it would appear that she has been indefatigable in her endeavors for the relief of the prisoners, and in procuring the means for facilitating their escape. Her conduct has consequently drawn on her the suspicions of the enemy, and was finally compelled to make her escape, under the distressed circumstances which she describes. I could not forbear recommending to your Excellency a person who has merited so much and been so friendly to our officers and privates, especially as

WRITING OF TENCH TILGHMAN.

Philadelphia 3d August 1777

Sir

Your favor of this date with its inclosures is now before me.

At the same time that I express my thanks for the high mark of confidence which Congress have been pleased to repose in me, by their Resolve authorizing me to send an Officer to command the northern Army, I should wish to be excused from making the appointment. For this, many Reasons might be mentioned, and which, I am persuaded will occur to Congress on reflection. X

The northern department in a great measure has been considered as separate, and more peculiarly under their direction and the Officers commanding there always of their nomination. I have never interfered, further than merely to advise, and to give such aids as were in my power on the requisitions of those Officers. X

It is certainly necessary that a Body of Militia should be immediately called out to reinforce the northern Army. In the conference which your Committee honored me with yesterday Evening, I mentioned the Number which I thought sufficient. But my opinion on this point, and the opportunity

then

WRITING OF DAVID HUMPHREYS.

Dear Sir

Head Quarters Newburgh
Jan.y 7th 1782

I have to acknowledge the receipt of the Letter, your Excellency did me the honor to write on the 25th of Dec.r and to express the great satisfaction I experienced from the agreeable communications you had the goodness to make.

Enclosed your Excellency will find the original Certificate which was given by Mr Chetwood to the bearer of your Letter of the 17th Ult.—

Nothing very interesting has happened since my last—a fleet sailed a few days after from New York for Europe, and I am informed the Enemy are under apprehensions lest the French Fleet which sailed the 22d after which to have fallen in with it.—I am

extremely anxious to hear from Charleston; and still more so, [illegible]

WRITING OF DAVID COBB.

and I should [illegible] injustice to the Officers of this Army, was I not to declare, that as far as my opportunities have gone (and I have conversed freely on the subject from the General to the Ensign) they seem equally well disposed to carry it into execution; but they can see no reason why the Contractor should pocket the benefits which flow from their distresses.

If the Officers could receive their pay as soon as it is issued regularly, money especially, if they could, as I am told is the custom with the British Service, have always a month of the latter in advance, it is possible they would renounce both hands of this Issue; but having none of the former, & with difficulty come at the latter, it is both inconvenient and mortifying to them to be tyed up as they are, when it does not appear that the public interest is advanced by it. — But admitting it is so in a small degree, we may stretch the thread of Economy 'till it breaks. —— Minds soured by distresses

WRITING OF PEREGRINE FITZHUGH.

Dear General

Upon a visit to my native town a little
time ago I was informed by them you wanted
a number of Ewe Lambs and as there was
a prospect of my being able to make a
considerable collection in my neighbourhood
I promised to make enquiry on my return
& address you upon the subject - This
letter is to comply with my promise to
my Father and to express a pleasing
duty to you - If I had fortunately
been acquainted with your desire a fort-
night sooner it would have been in my
power to have purchased for you an hundred
fine Lambs at 10/ each, this was done in
my absence by a Butcher from Baltimore
who I found upon the Island at my
return and who had purchased upwards
of an hundred and fifty - This drought -
on the inhabitants has made my attempts
to accomplish your wishes not so successful
as I could wish - from 40 to 50 and

WRITING OF WILLIAM STEPHENS SMITH.

Camp 4th Nov. 1781.

Dear Sir

Your application is not a little distressing to me, and if complied with must have an unhappy influence on the Minds of the detachment which is going to the South ward — Colo. Stewart is already gone — and Colo. Butler on account of his Health is going — three of the first Officers then in rank and consequence in the Pensylvania Line, to be away from their troops when an important & interesting service is in view (independant of the ~~same~~ success intended by it to the Army of Major General Greene) will discourage that Line, and must subject me to censure for yielding to it

Out of the two alternatives proposed by you I shall prefer the first as more consonant to Military propriety, if your wound does not render the March too Severe — ities to you —

Under this exposition of my sentiments I leave you at Liberty to follow the dictates of your own Judgement being with the most esteem & regard Dear Sir

Your Most Obt. Servt.

WRITING OF BENJAMIN WALKER.

Head Quarters
Newburgh April 1782

Dr Sir

I have to reply to your favor
of the 26th ult. which was handed
me on my way to this place

When the matter respecting the
number of Servants to be allowed to the
Officers of Army, was taken up by the
General Officers. If I am not mistaken,
it was the general Sentiment that the
indulgence ought to be confined to the
Officers of the line, that as the State
were in general allowed a Day Subsequent to them they ought to provide
themselves with Servants & receive them
the allowance of Rations - if so related
to Congress — It was upon this
principle the resolution was made
and I cannot see the Reason why
it was departed from instead of

Yours

WRITING OF HODIJAH BAYLIES.

Staunton, March 1st 1783.

Sir,

I was not till yesterday honoured with your Excellency's Favour of the 8th of January. The amazing length of time it has taken to reach me can only be accounted for upon the Blunders of the Post Master; who, probably, as he has heretofore done with others, sent it a circuitous route to Boston via Philadelphia.

Your Letter relieved me from a painful Anxiety, founded on an Apprehension that mine had miscarried, and that in Consequence, my Conduct might be ascribed to other than the true Motives.

When I begged an Extension of your Indulgence, the Idea did not enter my Mind, that your Excellency could be properly attended by two Gentlemen only, with any Convenience to yourself or to them; or that by consenting to my Request, the Number would be reduced to two. Upon the Departure of Colo Tilghman

WRITING OF MARTHA WASHINGTON.

Newburgh 30 march 1783.

Dear Sir

I have duly received your favors of the 17th and 24th ulto— I rejoice most exceedingly that Peace is an end to our warfare; and that such a field is opening to our view as with, with wisdom to direct the cultivators of it, make us a great, a respectable and happy people, but it must be improved by other means than state politicks and unreasonable jealousies — and jargoning of requires not the second sight to see that we shall be instruments in the hands of our Enemies, & those European powers who may be jealous of our greatness in union, to dissolve the confederation.— but to attain this altho' the way seems extreamly plain is not so easy—

my wish to see the Union of these states established upon liberal & permanent principles — & inclination to contribute my mite in pointing out the defects of the present constitution are equally great — all my private letters have teemed with these sentiments; & whenever this subject has been the subject of conversation, I have endeavoured to diffuse & enforce them but how far any further efforts by me might be productive of the wished for end — or appear to arrogate more than belongs to me — depends so much upon peoples opinions & the temper and dispositions of people, that it is not easy to decide.— I shall be obliged to you however for the thoughts which you have promised me on this subject, and

as
